Open to Frontend / React roles | Immediate Joiner

PROFESSIONAL SUMMARY

Frontend Developer with 3+ years of experience building scalable React applications, dashboards, and API-driven systems. Specialized in designing reusable component architectures, optimizing performance, and managing complex UI state using Redux Toolkit and Context API. Experienced in delivering production-ready features with strong focus on performance, user experience, and real-world problem solving.

TECHNICAL SKILLS

- Frontend:** React.js, JavaScript (ES6+), TypeScript (Basic), HTML5, CSS3, Tailwind CSS, Bootstrap
- State Management:** Redux Toolkit, Context API, Custom Hooks
- Routing:** React Router (Dynamic, Nested, Protected Routes)
- API Integration:** REST APIs, Axios, Fetch API
- Tools:** Git, GitHub, Vercel, Postman, Vite, Chrome DevTools
- Concepts:** Component Architecture, Performance Optimization, Code Splitting, Lazy Loading, Responsive Design

PROFESSIONAL EXPERIENCE

Frontend Developer | Bizionic Technologies

Jul 2024 – Feb 2026

Hyderabad, India

- Designed and implemented reusable React component architecture, improving scalability and UI consistency across applications.
- Built a shared component library (forms, tables, modals, dropdowns), reducing development time for new features.
- Integrated REST APIs with structured async handling, ensuring reliable and maintainable data flow.
- Optimized rendering and reduced unnecessary re-renders, improving UI responsiveness and load performance.
- Collaborated with cross-functional Agile teams to deliver features and support production releases.

Frontend Developer | Pencap Technologies

Mar 2024 – Jun 2024

Hyderabad, India

- Developed responsive React interfaces with focus on performance and usability.
- Refactored legacy code into reusable components and custom hooks, improving maintainability.
- Built API-driven UI with proper loading and error handling.
- Applied performance optimizations such as lazy loading and efficient rendering techniques.

UI Developer | Zaps Marketing

Sep 2022 – Feb 2024

Hyderabad, India

- Developed pixel-perfect, responsive React interfaces across multiple applications.
- Built reusable UI components to maintain design consistency.
- Collaborated with design and backend teams to deliver complete frontend features.
- Debugged and resolved UI issues, improving stability and UX.

KEY PROJECTS

Zenith UI | Analytics Dashboard & Authentication System

[Live Demo](#)

Tech: React.js, Chart.js, React Hook Form, Context API

- Built a scalable analytics dashboard with authentication and protected routes for secure user access.
- Designed reusable component architecture for modular and maintainable UI systems.
- Implemented dynamic data visualization using Chart.js for real-time insights.
- Optimized form handling using React Hook Form to reduce unnecessary re-renders.
- Developed responsive UI with theme switching.

QuickFlix | Movie Discovery Platform

[Live Demo](#)

Tech: React.js, TMDB API, Context API, React Router

- Built a movie discovery platform with real-time API integration and optimized data fetching.
- Implemented dynamic routing with detailed pages and structured navigation.
- Developed features like infinite scrolling, category-based filtering, and favorites management.
- Managed global state for filters and favorites using Context API.

EDUCATION

Bachelor of Technology – Computer Science and Engineering

2016 – 2020

Gandhi Institute for Education and Technology (GIET), Bhubaneswar

TECHNICAL MENTORSHIP

Technical Mentor | Naresh i Technologies

Apr 2022 – Aug 2022

- Mentored junior developers in React.js and component architecture.
